EDUCATION

University of Cambridge MPhil in Film and Screen Studies by Advanced Study	Oct 2026 - Jul 2027
Tsinghua University Rixin College, BA in Chinese Language and Literature	Sep 2022 - Jul 2026
Academic Performance: GPA 3.9/4.0; top 10% of major; CET-4 692; CET-6 615; IELTS 8.0 (R 9.0 / L 9.0 / W 7.0 / S 7.5). Relevant Coursework: Digital Humanities and Python; Advanced Experimental Psychology - AI Experiments; Brain, Language and Cognition; Social Media Applications; Media Programming; Audiovisual Production. Honors: National Scholarship (2025); Tsinghua Comprehensive Excellence Scholarship (2024); Zhou Naisen Scholarship (2024); Best Paper, Young Scholars Forum in Linguistics (2024). Leadership: President, Tsinghua Student Press Corps; Vice Director, Publicity and Creative Department, Tsinghua Student Union; Team Lead, Learning and Practice Department, Tsinghua Youth League Committee.	

INTERNSHIP EXPERIENCE

ByteDance AI Product Manager Intern (Gauth)	Nov 2025 - Jun 2026
Primary Responsibility: Contributed to Gauth, an overseas AI learning app ranked No. 1 in downloads, focusing on AI Tutor optimization and a new language learning module. AI Tutor Optimization: Led 10+ iterations of the app's core prompt; designed experiment tracks for Southeast Asia localization, component-based whiteboards, and negative-feedback handling. Used structured tools to reduce robotic responses and irrelevant explanations, raising positive ratings by 7%. Language Learning Module: Core product member in the module's 0-to-1 design; led competitive research, workflow mapping, and European K-12 edtech market analysis. Built a course framework around French and UK textbooks and designed core learning flows for vocabulary, grammar, and speaking. Data-Driven Iteration: Conducted 10+ rounds of cross-market user analysis to identify key intents and multilingual needs; built a metrics dashboard tracking frequent queries, subject-level answer accuracy, and churn points to guide product decisions.	
Beijing Dianzhong Technology Overseas Social Media Creative Editing Intern	Aug 2025 - Nov 2025
Primary Responsibility: Created DramaBox video content for TikTok, Facebook, Instagram, and YouTube; conducted competitor and performance analysis to drive cross-platform growth. Content Creation: Independently edited and post-produced behind-the-scenes, POV, and other videos, generating 9,000,000+ views and 300,000+ likes. Data Analysis: Used performance and trend data to support content strategy and proposed optimizations based on cross-platform results.	
Academy of Arts & Design, Tsinghua University Research Intern, Media and Interaction Lab	Jun 2025 - Sep 2025
Primary Responsibility: Contributed to the digital restoration and VR experience for Xinjiang Kucha cave murals; managed research materials, wrote narrative scripts, and developed emotional storytelling. Narrative Design: Designed story arcs and improved UX; refined the interactive VR demo, showcased as a key national cultural heritage project. User-Centered Iteration: Analyzed feedback, optimized interaction paths, and collaborated closely with interaction and design teammates.	

PROJECT EXPERIENCE

ArcProof - AI Documentary Narrative & Footage Orchestration Agent (Independent Project) AI Agent Product	Aug 2026 - Present
GitHub: https://github.com/WenyueH8/arcproof Product & Agent Design: Positioned ArcProof as a local-first narrative decision agent. A DeepSeek agent orchestrates transcription, visual recognition, retrieval, and narrative review to turn raw footage into six traceable storylines, flag evidence and perspective gaps, and generate pickup plans. 0-to-1 Delivery: Independently completed the PRD, interactive prototype, and local MVP; validated the end-to-end workflow with real video and enabled EDL, SRT, CSV, JSON, asset-sheet, and rough-cut exports.	
YiGou - English Writing Paragraph Practice Tool Writing Coach, HTML	Aug 2026
Learning Design & Build: Built a single-page tool that breaks Task 1 model answers into paragraph functions and data logic, then guides learners through full-paragraph translation, sentence-level Chinese-to-English drills, and expression blanks. Added expandable reference answers, grammar notes, and progress tracking.	
LexiLoop - Vocabulary Spelling Practice Tool Flashcards, HTML	Aug 2026
Learning Design & Build: Converts a word list into listening-context cloze tasks and Chinese-prompt spelling flashcards. Provides three hint levels, generates context when no source sentence is supplied, and prioritizes errors until the learner answers correctly twice.	

PRODUCT & TECHNICAL SKILLS

- Vibe Coding & Prototyping:** Built deployable product demos with Codex and Claude Code; understand agent-product LUI patterns and design feasible conversational experiences around model limits and user expectations.
- Product Design:** Skilled in Prompt Engineering, end-to-end PRD writing, user-need decomposition, and Figma prototyping.
- Data & Development:** Proficient in Python for data cleaning, analysis, and visualization, using data and user feedback to guide product decisions.
